

Career Clusters, Pathways, and Courses
North Carolina Career and Technical Education

Please see the FAQ worksheet tab for Frequently Asked Questions.

<https://center.ncsu.edu/nc/>

Frequently Asked Questions

How do I use this document?

This document contains all of the NC Career and Technical Education courses approved by the NC State Board of Education representing all Career Clusters and Pathways. LEAs should edit this document to publish a local guide reflecting its own Career Clusters, Pathways, and courses. The Local document may also include any approved Local Course Offerings. State Staff have assigned these courses based on a State-level perspective. LEAs may use discretion in over-riding courses based on a locally developed pathway.

What does the ^ mean?

The ^ indicates the courses uses materials from third-party providers.

What does the * mean?

*The * indicates a completer course.*

What is a completer course?

A completer course is the second or third course in a series that builds upon skills acquired in the previous course(s). A completer course has a prerequisite.

What is a concentrator?

A concentrator is a student who has earned four or more technical credits in a Career Cluster, at least one of which is a completer course. The student may earn all four credits from foundation courses or three from foundation and one from enhancement courses for the Career Cluster.

What is a foundation course?

A foundation course provides fundamental knowledge and skills needed for student success in secondary and postsecondary education and careers in the Career Cluster.

What is an enhancement course?

An enhancement course augments related knowledge and skills developed in foundation courses and provides for success in postsecondary education and careers in the Career Cluster.

What is the difference between a Career Cluster and a Career Pathway?

Career Clusters are groupings of occupations used as an organizing tool for curriculum design and instruction. Career pathways are sub-groupings of occupations within a Career Cluster. Occupations are grouped into pathways based on the set of common knowledge and skills required for career success.

What is the National Academy Foundation?

The National Academy Foundation provides industry-focused curricula in four themes: Finance, Hospitality & Tourism, Information Technology, and Engineering. For more information on NAF, please visit www.NAF.org.

Continued on next page...

What is the NC Career & College Promise?

The NC Career & College Promise offers North Carolina high school age students a clear, focused and affordable path to future success. Qualified North Carolina high-school age students can begin their two- or four-year college work, tuition free, while they are in high school allowing them to get a head start on their workplace and college preparation. The program is free to all students who maintain a "B" average and meet other eligibility requirements.

For more information on the NC Career & College Promise, please visit www.careercollegenc.org.

We have included a worksheet tab with the CCP courses currently aligned to Career Clusters. The tab is named "CCP Courses" and is located to the left of the AFNR Career Cluster worksheet.

Is Cooperative Education still available?

Yes. Cooperative Education is a method of instruction for students, 16 and older, where technical classroom instruction is combined with paid employment directly related to the classroom instruction. The experience has to be offered in the same academic year in which the complementing course is offered. The course type for Co-op(foundational or enhancement) will be the same as the classroom course.

What are the current graduation requirements for a student in North Carolina?

For the most current graduation requirements, please visit www.ncpublicschools.org/gradrequirements

Transitional Courses are listed below. These courses previously were included in the Career Cluster documents, but have since been removed.

Course Number	Course Name	Foundational Clusters	Enhancement Clusters
FC10	Teen Living	AG, AC, AR, HL	
AU71	Biotechnology and Agriscience Research I	AG	
AU72	Biotechnology and Agriscience Research II	AG	
II13	Cisco Network Engineering Technology III	IT	
II14	Cisco Network Engineering Technology IV		IT
