Dear Prospective Parents and Students,

We are pleased that you are considering applying to Columbus Career and College Academy.

Columbus Career and College Academy (CCCA) is a unique high school in Columbus County and in North Carolina. Students have the opportunity to complete courses that will lead to college degrees and/or certifications and courses that tie in with certifications in addition to the standard North Carolina high school diploma.

CCCA students are held to high academic and moral standards. Students are expected to take responsibility for their learning and be willing to do what it takes to succeed.

Eighth grade students who choose CCCA will be able to select a pathway from the following: Culinary Arts, Communications & Broadcasting, Metal Machining, Masonry Construction, Scientific Visualization, and Early College.

- Broadcasting is a growing industry and offers a variety of careers such as producers, technicians, photographers, editors, account representatives, advertising copy writers, music directors, programmers, advertising copy producers, traffic managers, on-air personalities and directors. CCCA has an on-campus FM radio station reaching 100,000 people in southeastern NC and northeastern SC. Students run and manage this station and also learn to use TV and the internet to reach mass media.
- Culinary arts, the study of the art of cooking and baking, leads to a career in the restaurant or food industry. Some career options are restaurant owner, caterer, chef, cook, restaurant manager, teacher, food critic, food photographer, writer, and food stylist.
- Courses in the metal machining pathway include Drafting I and II, Metals Manufacturing I and II. Machinists, welders, and tool and die makers are employed in virtually every area of manufacturing including heavy or large machinery, aerospace, automobiles, shipbuilding, and parts manufacturing.
- The Masonry program includes four high school masonry courses. Students coming out of the masonry program may seek jobs with local masonry or carpentry professionals
- Students in the Scientific Visualization program use computer software to create 2D and 3D graphics and animations.
- Because on-the-job experience is so crucial, CCCA seeks partnerships with local employers to provide job shadowing and internship experiences in culinary, masonry, metal manufacturing, broadcasting, and other career choices of the students.
- At CCCA, Early College students can earn a two year college degree in various areas along with their high school diploma.

In recent years, Columbus Career and College Academy has earned the following honors:

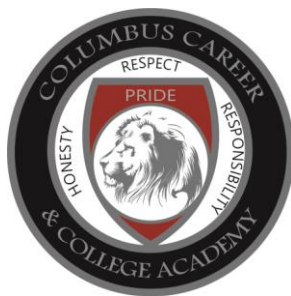

- Honor School of Excellence Award
- Culinary students have received numerous Blue Ribbon awards in local and state competitions.
- Broadcasting students have been featured on WECT and WWAY for their outstanding work in video broadcasting and have won state and national awards for video and radio productions.
- Masonry students have won several local and regional awards.
- Students have earned numerous awards at SkillsUSA regional rallies and state competitions in addition to participating in eight national competitions.

We hope that you will consider Columbus Career and College Academy as your choice for high school and beyond. Please contact us if we can provide additional information. Best of luck in your high school endeavors!

Parents Please Read Carefully: By submitting this application, you understand the commitment of effort and time your child is undertaking if accepted into Columbus Career and College Academy. If at the end of the first two high school semesters, your child is either unwilling or unable to continue studies in CCCA, he/she will be reassigned to the high school of his/her attendance zone. In addition, an attendance or behavior problem during the semester will be sufficient cause to rescind any admission granted and may result in placement to a county Alternative School. In addition, you commit to finding placement and transportation for 48 hours per semester of job shadowing/internship for as long as it is a requirement of the school. Finally, as part of the program, your student's records and personal information is shared between the school system and the college. Your signature below indicates that you understand and agree to this condition of acceptance in the program.

Parent/Guardian Signature: _____ Date: _____

Students: "I understand that students at CCCA may be expected to complete job shadowing and internships at job sites each year in addition to regular school work. I commit to meeting the school's very high expectations for my schoolwork, homework, attendance, and behavior. I agree to follow all the policies of CCCA. Failure to do so may result in my being placed in alternative school or even removed permanently from the program. I understand that should I find the school is not for me, I may only transfer to another Columbus County High School at the end of the first or second semester of the 9th grade. I also commit to working hard to complete all of the program and graduate. I understand that if I am chosen, I may receive up to two years' worth of college education at nearly no cost and that I will have received a spot that could have been taken by another student. I will therefore do my very best."
