

This teacher is quite the traveler. Mrs. Hinson (a sixth grade teacher) has driven across the country all the way to the Pacific Ocean while passing through states like California. That's not all, her next goal is to win the lottery!

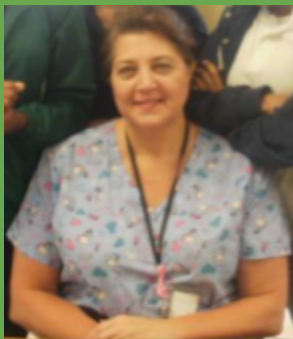

Mrs. Mitchell is our chorus and band teacher. She is very social and energetic. Her company is very enjoyable too, including her mesmerizing music she plays on the piano. She adores any kind of hot and spicy food as well.

Mrs. Hardy loves her second grade class in addition to cheesy pizza, vibrant purple, and singing along to catchy music tunes. She also played volleyball when she was in school.

This fourth grade teacher, Mrs. Young, loves to garden in her spare time. Her favorite flower is the classic robust rose. Mrs. Young takes pleasure in reading and spending time with her family. Her goal is to make a difference in each and every child's life.

Mrs. Gore is very comforting and generous. She adores her dog, Copper, and royal blue. She enjoys chicken and pastries. Mrs. Gore was very athletic in school, playing a number of sports such as: basketball, volleyball, and softball. Most of all she is dedicated to respect others and to be respected while giving it all she's got.

A special thanks to our readers!
