Things You Didn't Know About February

- Valentine's Day originated from Emperor Claudius II after he didn't want men to marry during the time of war. However, Bishop Valentine was against what he said and held secret weddings for people.
- It was one of the last months (along with January) to be added to the Roman calendar.
- February is a summer month in the Southern Hemisphere, equivalent to August in the Northern Hemisphere.

Science Fair Projects

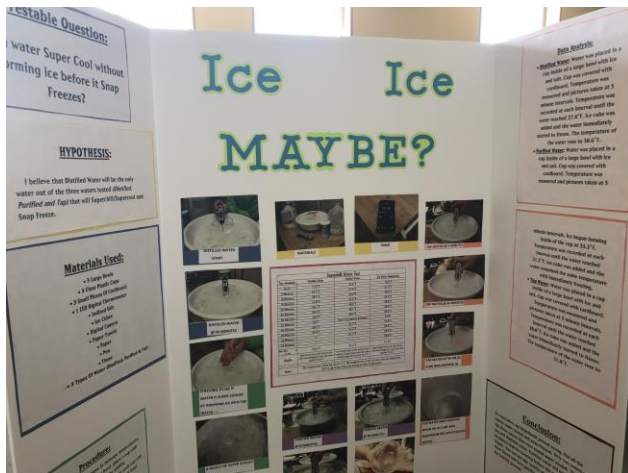

In January, Grades 4th-8th completed science fair projects. They used their science skills to prepare amazing experiments for a chance of prizes.
